

2 Sided Compactainer – Designed for ultimate cubic fill

The 2 Sided H-Frame Compactainer® is the ultimate customizable roll cage - It is designed for optimum space efficiency, to reduce manual handling, improve ergonomics and give higher cubic truck fill.

One person nesting ensures that employees or customers can reduce space requirements in outlets and storage rooms. It ensures faster return logistics from delivery points. The footprint of the roll cage is calculated to maximize both transport cubic efficiency and warehouse space for buffering.

The Compactainer® is a well-proven solution within wholesale and retail industry globally.
